brainvisa-development - Task #16356

Window: cross compile and install dot in /i2bm/brainvisa/Windows-7-i686

09/03/2017 10:23 AM - Souedet, Nicolas

Status:	Closed		**Start date:**	09/03/2017
Priority:	Normal		**Due date:**	
Assignee:	Souedet, Nicolas		**% Done:**	0%
Category:	Request		**Estimated time:**	0:00 hour
Target version:	brainvisa-4.7		**Spent time:**	0:00 hour

Description

Dot is used both in soma-workflow and also in capsul. May we have to include it as a strong dependency of this projects now.
It is necessary to also check packaging rules on Windows.
