

## Morphologist

### Processing tools: private part

T1 segmentation: VIP library and commands: see the [svn repository](#)  
Sulci library and commands: see the [svn repository](#)  
Plus many image processing tools in the public [AIMS](#) project

### BrainVisa/Axon pipeline and processes

GPL part (because of PyQt in Axon):  
[svn repository](#)

### New Morphologist "User Friendly"

Used as a test project for **Scrum** agile development and **git repository**. It just begins (2012/10/29).  
Dedicated page: [Morphologist User Friendly](#) (MUF)

### Baby segmentation toolbox

Still internal for now.  
[svn repository](#)
